

## The FCC Affordable Connectivity Program

### What is the Affordable Connectivity Program (ACP)?

The Affordable Connectivity Program is a government funded program by the FCC to help offset the cost of broadband services for eligible households during COVID-19.

The program was originally referred to as the FCC's Emergency Broadband Benefit but has changed to the Affordable Connectivity Program and will provide a discount of up to \$30 (previously \$50) per month towards broadband service for eligible households and up to \$75 per month for eligible households on Tribal lands.

### Who will qualify for ACP funds?
